

## WE DELIVER PROTEIN

Natural.  
Sustainable.  
Nutrient Rich.  
Complete.

## WHO WE ARE

Global food demand is growing while patterns of food consumption are changing towards more sustainable and healthier sources.

We established Hargol FoodTech in 2016 with a mission to deliver better protein: A natural source of highly digestible complete protein, healthier for humans, more sustainable, safer and more efficient to produce.

Co-Founder and CEO of Hargol, Dror Tamir's vision is to lead the global protein revolution by doing better. Creating a protein that has better nutrition and healthier, more sustainable and richer in taste.

Hargol is a leader in the global alternative protein space, producing nutrient rich complete protein made from locust. Hargol is the first company in the world to reach industrial scale production for that protein.

Hargol's technology is mature, and the company has three production facilities operating in Israel. The infrastructure and technology are climate resilient, modular and quickly duplicated to meet any market demand.

Hargol has won over 20 awards worldwide.

SUSTAINABILITY, ENVIRONMENTAL ACHIEVEMENT AND LEADERSHIP

# NUTRIENT RICH & HEALTHY

Locust are a natural powerhouse of complete protein, antioxidants, vitamins and minerals

## Perfect for sports performance nutrition:

**72% complete protein** – High quality protein with high proportion of essential amino acids.

**Rich in BCAA (Branched-chain amino acids)** - Help build muscle mass, reduce fatigue during exercise and reduce muscle pain after exercise.

**Rich in iron** - Essential for red blood cell production and to carry oxygen from the lungs.

**Rich in potassium** - Important for muscle function and heartbeat regularity.

**Magnesium** - Helps with muscle, nerve function and regulating blood pressure.

**Vitamin E** - Powerful antioxidant, aids in the production of red blood cell.

**Vitamin B3 (Niacin)** - Turns food into energy.

## Vital for your wellbeing and wellness - Essential micronutrients that have roles in:

**Rich in antioxidants** – 5X more than fresh oranges.

**Strengthens the immune system** - Rich in iron, zinc, vitamin E, vitamin B12, copper & magnesium

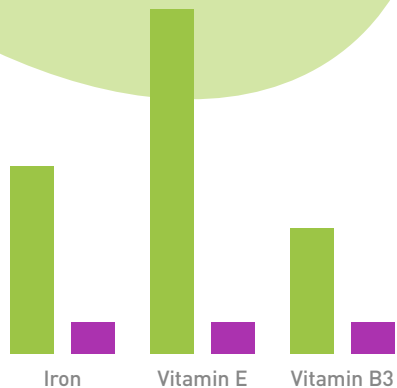

**Improves gut health** – Probiotic fiber - High in chitin

**Enhances sleep** – Rich zinc, iron, vitamin B3 (niacin), vitamin B12, copper & magnesium

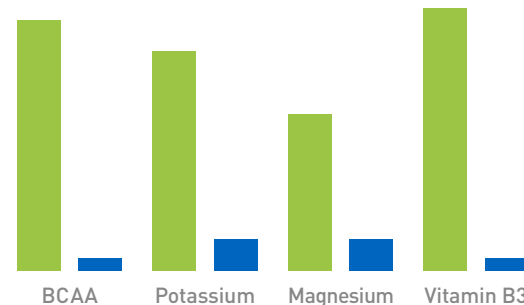

**Great for skin** – Rich in vitamin E, zinc & copper

**Wound healing and injury recovery** - Rich in zinc & magnesium
